EDUCATION

University of California, Los Angeles (UCLA) 2023 – 2027
Bachelor of Arts in Geography, Minors in Geospatial Information Systems & Technologies (GIS&T) and English

- GPA: 3.95
- ALD|PES Honor Societies (VP) | Bruin Bladers & Rollerskaters (Founder) | Con Brio String Orchestra (Director)

EXPERIENCE

LA County Public Works – Mapping & GIS Services Section, CA
Student Professional Worker I June 2026 – Present

- Audited a third-party pilot deployment of a machine learning-derived road symbol database, determining a baseline accuracy of 80% after isolating categorical outliers
- Formulated comprehensive QA/QC protocols to identify false positives and classification errors within AI-extracted features; aggregated geospatial error metrics to quantify model precision and recall
- Identified critical limitations in AI feature extraction on aerial imagery in high-density urban environments
- Delivered technical briefings to management and county-wide data committees, directly influencing procurement decisions to halt a major data acquisition; writing technical report to inform other public agencies on limitations

UCLA Luskin School of Public Affairs, CA
Undergraduate GIS Researcher September 2025 – Present

- Performed spatial intersections in ArcGIS Pro to identify U.S. census tracts overlapping with Native American reservations boundaries for targeted demographic study
- Leveraged RStudio to integrate data from Home Mortgage Disclosure Act (HMDA) with the isolated tracts
- Co-authoring a research paper under faculty guidance, addressing a gap in demographic literature and leveraging empirical data to pioneer insights into Native American housing inequality and inform future policy frameworks

UCLA GIS&T Academic Research Project, CA
Independent GIS Researcher November 2025 – December 2025

- Analyzed Chinese population change amid rising housing costs in LA County from 2015 to 2023
- Ran hotspot analysis to determine displacement & expansion zones, calculated % change by census tract

Asian Americans Advancing Justice - Atlanta, Remote
Data Analysis Intern May 2023 – July 2023

- Spearheaded research project on voter behavior among AAPI/Latinx & low-income communities in Georgia
- Analyzed raw data from the US Census and Georgia Secretary of State, using Excel to uncover trends
- Developed visually compelling graphs and charts, presented actionable insights to upper management
- Analyzed back-end temporal data of in-person employees, flagged discrepancies to control for quality

SKILLS

- **Technical**: ArcGIS Pro, ArcGIS Online, Experience Builder, QGIS, Google Earth Engine, ENVI, SQL, R
  - **ArcGIS Pro**: Geocoding, Raster Georeferencing, Digitizing, Spatial Analysis, Suitability Analysis
- **Languages**: Mandarin Chinese (Fluent) | Spanish (Limited Working Proficiency)
